Essence Of Decision

Essence of Decision: Explaining the Cuban Missile Crisis is an analysis by political scientist Graham T. Allison, of the 1962 Cuban Missile Crisis. Allison used the crisis as a case study for future studies into governmental decision-making. The book became the founding study of the John F. Kennedy School of Government, and in doing so revolutionized the field of international relations.

Essence of Decision - Wikipedia

The central idea of Essence of Decision is this: the dominant academic theory to explain the world's events is a high-level, rational expectations model based on formal economics, a theory that ignores the impact of bureaucratic imperatives and institutional politics.

...

"Essence of Decision" is a classic for a reason. For anyone who cares about government decision-making, it is hard to find another single book as practical and useful. While the treatment of the Cuban Missile Crisis is fascinating, the book's greatest value is its presentation of multiple lenses for analyzing decisions: the rational actor model, the organizational model, and the political model.
