Faster Higher Farther The Volkswagen

A few months later, the EPA disclosed that Volkswagen had installed software in 11 million cars that deceived emissions-testing mechanisms. By early 2017 VW had settled with American regulators and car owners for \$20 billion, with additional lawsuits still looming. In *Faster, Higher, Farther*, Jack Ewing rips the lid off the conspiracy. He describes VW's rise from "the people's car" during the Nazi era to one of Germany's most prestigious and important global brands, touted for being "green".

Amazon.com: Faster, Higher, Farther: The Volkswagen ...

Faster, Higher, Farther is packed full of anecdotes that have stuck in my mind, such as how VW car designers once refused to believe that American drivers want large cup holders in their cars. The detail may seem mundane but actually does a great job in explaining how and why VW misjudged the market.
