Open Data Philippines What Does

The Open Data Philippines and the new Freedom of Information (FOI) Executive Order, aims to create an active exchange of information between the government and the public by introducing a central database for all publicly available government data and information through data.gov.ph.

Open Data Philippines

While attending Geeks on a Beach last month, we also spent some time in Manila to visit a few labs and agencies, and had several discussions on the state of open-data in the Philippines. Quick reminder: open-data is a recent trend for government, companies and institutions to release their datasets freely, so that users, developers, citizens or consumers can make use of it and create new services (check FixmyStreet for a "citizen 2.0" stint or FlyonTime for a more commercial approach).
